AUG

09.00 - 10.30 AM

Sal IV

Co-creation is a powerful approach to address complex societal challenges and transition towards a sustainable future.

The speakers in our panel will provide illuminating case studies that showcase the diverse applications and outcomes of co-creation across various contexts.

After the presentations, we will open the floor for a rich and dynamic discussion, where our panelists will exchange thoughts, ideas, and experiences on the challenges and potentials of co-creation.

Welcome to join!
